### KEY FEATURES

- 32" Pro Series True-Outdoor All-Weather Television for permanent outdoor installation
- Landscape Orientation only, use DS-3211P for portrait installation.
- Ultra-Bright (1000 NIT) 32-inch full HD, 1080p LED screen for improved outdoor viewing
- Direct Sunlight-Readable
- Anti-glare protective glass and removable front bezel for easy field servicing
- Massive, side-opening cable/media bay provides easy access (Opening: 7" x 12.5" x 3" deep / Interior: 8" x 14" x 2.5" deep)
- Media bay power port powers media players without the need for external cords (5v@3.5amps / 12v@3amps)
- Side-mounted cable ports for improved access and visibility
- High temperature Enhanced Solar Tolerance (EST) technology prevents isotropic blackout
- Thermal-flow air ventilation system keeps the unit cool & dry in temperatures up to 122 degrees F
- Ability to operate in cold weather (-40 degrees F)
- Exterior designed to protect internal components from rain, snow, dust, insects, humidity, and salt air
- Powder-coated rust-proof aluminum exterior for strength and durability
- RS232 serial control with discrete on, off, and input control (located in the cable-entry compartment)
- Rear IR receiver (located in the cable-entry compartment)
- Innovative water-tight Cable Entry System seals out moisture and allows for easy hook-ups
- Weatherproof detachable 20W speaker bar (Top or bottom mount)
- Quick-change filtration cartridges
- Weatherproof remote control
- Weatherproof control buttons with optional tamper-proof plate
- Remote control Lock-out prevents unauthorized users from changing the programming

### KEY FEATURES

- 84" Pro Series True-Outdoor All-Weather Television for permanent outdoor installation
- Ultra-Bright (800 NIT) 84-inch 4K UHD (3840 x 2160), LED screen with IPS (In-plane switching) technology for consistent, accurate color from all viewing angles
- Direct Sunlight-Readable - for a clear, bright picture any time of day
- Anti-glare tempered glass shield helps protect screen from impact
- Supports HDMI 2.0 and HDCP 2.2 to ensure compatibility with the latest 4K sources and streaming services
- Built-in HDBaseT with IR repeater for easy control integration
- Massive, side-opening cable/media bay provides easy access (Opening: 8" X 12" x 3" deep/ Interior: 9"X 20"X 2.1" deep)
- Media bay power port powers media players without the need for external cords (5v@3.5amps / 12v@3amps)
- Side-mounted cable ports for improved access and visibility
- High temperature Enhanced Solar Tolerance (EST) technology helps prevent isotropic blackout
- Thermal-flow temperature control system keeps the unit operating smoothly in extreme heat (up to 122 degrees F) and cold (down to -40 degrees F)
- Exterior designed to protect internal components from rain, snow, dust, insects, humidity, and salt air
- Powder-coated rust-proof aluminum exterior for strength and durability
- RS232 serial control with discrete on, off, and input control (located in the cable-entry compartment) for additional control integration
- Rear IR receiver (located in the cable-entry compartment) keeps IR emitter hidden & protected
- Innovative water-tight Cable Entry System seals out moisture and allows for easy hook-ups
- Weatherproof IR remote for reliable control outdoors
- Remote control Lock-out prevents unauthorized users from changing the programming
